Thesis & Report Tutorial
Worksheet

Step 1a: Results

Write down a list of all the important results that you have obtained (and that you are working towards).

Step 1b: Concepts & info

Write down a list of the important concepts/theory/information that you need to explain your research.

Step 2: Visuals

Sketch figures (plots, graphics, tables, equations, bullet points) for each of the items of list **1a** and 1b.

Step 3: Outline

Develop an outline in which you insert each of your figures.
